Funded by the European Union in the framework of the EU Health Programme (2008-2013) in the frame of a service contract with the Consumer, Health, Agriculture and Food Executive Agency (Chafea) acting under the mandate from the European Commission. The content of this report represents the views of the Andalusian School of Public Health (EASP) and is its sole responsibility; it can in no way be taken to reflect the views of the European Commission and/or Chafea or any other body in the European Union. The European Commission and/or Chafea do not guarantee the accuracy of the data included in this report, nor do they accept responsibility for any use made by third parties thereof.

## Small Group Discussion

Please assign a rapporteur in charge of writing down a summary of the group discussion, and discuss the following aspects in the small group:

1. Exchange the most relevant dimensions of intersectionality identified in the individual task.

2. Exchange your reflections regarding your own position, taking into account dimensions of intersectionality, and its influence in the communication with health care users.

3. Share potential strategies for addressing intersectionality in the process of providing health care to migrants or members of ethnic minority communities.
